**T**RB is organizing a conference to review new safety tools and concepts, highlight current successful university–transportation agency safety partnerships, identify current and potential capabilities to fully use these new tools and concepts, and explore collaborative approaches by transportation agencies and universities to improve highway safety. The conference

would serve as a forum for practitioners and researchers in highway safety, including state department of transportation safety engineers and planners, governors' representatives for highway safety, safety specialists in public health and local government, safety data experts, and academics involved in transportation safety research.
